

Strengthening the Resilience of Our Islands and Our Communities to Climate Change

Description

[PDF version](#) or type unknown

Description

The objective of the programme is to strengthen the ability of all Cook Island communities and public service to make informed decisions and manage anticipated [climate change](#) driven pressures (including extreme events) in a pro-active, integrated and strategic manner. In achieving this objective, the programme will support, at the national, sectoral, and island levels, implementation of the Cook Islands' new JNAP for DRM and CCA.

Project Summary

The objective of the programme is to strengthen the ability of all Cook Island communities, and the public service, to make informed decisions and manage anticipated [climate change](#) driven pressures (including extreme events) in a proactive, integrated and strategic manner. In achieving this objective, the programme will support, at the national, sectoral, and island levels, implementation of the Cook Islands new National Action Plan (NAP) for [Disaster Risk Management](#) (DRM) and [Climate Change Adaptation](#) (CCA).
