

Tuvalu Sustainable Energy Interventions

Description

The Tuvalu Sustainable Energy Interventions initiative aims to improve **public awareness** on energy conservation and **energy efficiency** in the country. It develops capacity of technicians to maintain solar-diesel hybrid systems and solar PV stand-alone home systems in outer islands. The project also adds value to proposed Italian-funded renewable energy project "Tuvalu Photovoltaic Electricity Network Integration" (TPVENI) and enables resource mobilization to sustain programme.

Project Status

Completed

Start Date

Wednesday, October 21, 2020

End Date

Wednesday, October 21, 2020

Project Type

Pilot / Trial / Demonstration Project

Total Funding

20000

Project Scope

National

Project Outputs

1. Community awareness-raising on energy conservation and energy efficiency
