

University of the South Pacific-EU Global Climate Change Alliance project

Description

Through a site selection process of the most vulnerable island, the project will provide the opportunity to the country to case the use of tested methods of community engagement in the **development** of island **adaptation** and **mitigation** plans to encourage responses to address **climate** changing on their islands. The project site selected is Penrhyn Island in the Northern Cook Islands.

Project Status

Completed

Start Date

Wednesday, August 14, 2013

End Date

Wednesday, August 14, 2013

Short Title

USP-EU GCCA

Project Type

Capacity Building
Community Awareness
Informal Training Courses
