

Integration of Climate Change Risk and Resilience into Forestry Management

Project Status	Completed	
Start Date	Wednesday, June 1, 2011	
End Date	Tuesday, June 30, 2015	
Project Type	Capacity Building Field Implementation	
Total Funding	2500000	
Project Scope	National	
Project Objectives	1) To increase resilience and adaptive capacity of Samoa's forest areas and the communities dependent on them for livelihoods to the threat of climate change through targeted adaptation interventions in (i) lowland agro- forestry and (ii) upland native forest sub-sectors.
