

Upgrading, Restoring, Enhancing Resilience of Coastal Defenses and Causeways

Description	PDF version or type unknown
<p>This project aims to prevent encroaching coastal erosion from affecting public infrastructure such as roads, airfields and community public assets by upgrading existing seawalls; to improve accessibility within the atolls which has been facilitated by causeways. Accessibility is, in a few cases, threatened by the inadequacy of causeway designs and/or change in the environment; to minimize potential risks to assets from climate-related disasters.</p>	

Project Status	Proposed
Start Date	Monday, August 15, 2022
End Date	Monday, August 15, 2022
Project Type	Capacity Building
Project Scope	Community
Project Objectives	1) To prevent encroaching coastal erosion from affecting public infrastructure such as roads, airfields and community public assets by upgrading existing seawalls.

Implementing Countries
Kiribati
