

Developing a Method for Adaptive Management and Protection from Climate Change in Mangrove and Coral Reef Ecosystems

Description

[PDF version](#) or type unknown

Other countries involved in this project are Cameroon and Tanzania. Additional information is required for this project in Fiji.

Project Status [Completed](#)

Start Date Saturday, April 27, 2024

End Date Saturday, April 27, 2024

Project Type [Capacity Building](#)

Project Scope [National](#)

Project Objectives This project sought to develop a generalizable approach for assessing [vulnerability](#) and [adaptation](#) of mangroves and associated ecosystems in high biodiversity tropical mangrove areas and associated coral reef, sea-grass and upland ecosystems.

Implementing Organisation(s)

[Australian Aid](#)

Development Partner Contacts

[Maria Lourdes Drilon](#)
