

Enhancing Resilience of Communities of Cook Islands through Integrated Climate Change Adaptation and Disaster Risk Management Measures

[PDF version](#) or type unknown

Project Status **Completed**

Start Date Wednesday, June 1, 2011

End Date Tuesday, June 30, 2015

Project Type **Capacity Building**

Total Funding 4991000

Project Scope **National**

Project Objectives The proposed programme by the Government of Cook Islands will strengthen the ability of all Cook Island communities and the public service to make informed decisions and manage likely **climate change** driven pressures in a pro-active, integrated and strategic manner. The programme will support, at the national, sectoral, and island levels, the preparation and implementation of the Joint National Action Plan on **Disaster Risk Management** and **Climate Change Adaptation** (DRM-CCA-NAP).

Project Activities Activities:
1. Community engagement in vulnerability assessment, adaptation planning and awareness.
2. Integrated Community Based Adaptation and Disaster Risk Management measures.
3. Institutional strengthening to support climate resilient policy frameworks for the implementation of the national DRR-CCA-NAP.
