

# Developing J-NAP ( an integrated approach to reduce risks including through joint disaster risk management (DRM) and Climate Change Adaptation (CCA) PLAN

[PDF version](#) or type unknown

## Description

In October 2010 SOPAC/SPC commenced support to the Cook Islands on the [development](#) of a Joint DRM and [Climate Change Adaptation](#) National Action Plan. An outcome of this engagement thus far (implementation of the Joint NAP is yet to commence formally) is that the Office of the Prime Minister has agreed to take a lead role in the coordination of DRM and [Climate Change](#) after acknowledging the importance of disaster and [climate](#) risk as a crosscutting [development](#) issue. Given the fledgling state of the new joint unit for DRM and [Climate Change](#) within the Office of the Prime Minister the SOPAC Division will provide further support to strengthen its capacity to deliver against its responsibilities through dedicated technical assistance. This commenced from 1st September 2011 for a 3-month period.

Project Status

[Completed](#)

Start Date

Saturday, October 23, 2021

End Date

Saturday, October 23, 2021

Duration

3

Project Type

[Disaster Response](#)

Project Scope

[National](#)

## Implementing Countries

[Cook Islands](#)

## Implementing Organisation(s)

[SPC-SOPAC](#)
