

USAID Adaptation to Climate Change (Choiseul, Solomon Islands)

Description	PDF version or type unknown
<p>SPREP is implementing a USAID funded Ecosystem-based Adaptation (EbA) project in Choiseul Province, Solomon Islands. Choiseul is a remote region where the majority of communities have limited contact with representatives of government agencies. Many decisions are made through traditional village governance mechanisms and by individual land-owners. The project aims to bring these communities and decision makers a greater understanding of the role of their surrounding environment in climate change adaptation.</p>	

Project Status	Completed
Start Date	Tuesday, May 1, 2012
End Date	Tuesday, June 30, 2015
Project Type	Pilot / Trial / Demonstration Project
Project Scope	Provincial
Project Objectives	SPREP is implementing a USAID funded Ecosystem-based Adaptation (EbA) project in Choiseul Province, Solomon Islands. Choiseul is a remote region where the majority of communities have limited contact with representatives of government agencies. Many decisions are made through traditional village governance mechanisms and by individual land-owners. The project aims to bring these communities and decision makers a greater understanding of the role of their surrounding environment in climate change adaptation .
