

PCCR CLIMATE CHANGE ADAPTATION & MAINSTREAMING

WORKING GROUP REPORT

Updates on adaptation programs

- USP-EU-GCCA project is now in the adaptation implementation phase since V&A phase is completed. Several scholarships awarded and about 20 completed.
- AusAID programs under review and close to completion.
- UNDP projects in implementation and in the pipeline. Matrix of their projects with the associated funding has been prepared. PSE is a growing network.

Updates on adaptation programs

- Relocation is an issue for low-lying areas in Fiji. A formulation of the relocation guideline should be launched by the end of this month. Two villages are currently being relocated so lessons learnt are incorporated in the guideline.
- Oxfam works in Vanuatu on supporting government on CCA and DRR.
- SPC GIZ tries to combine forces in north Pacific with other projects, for example with SPC-GCCA project.

Updates on adaptation programs

- NAPA projects implementation
- Websites and contact points will be made available for project updates.

Loss & Damage

- L&D WG space has been agreed to discuss specifically L&D issues
- There will be a ToR developed to clearly identify the scope of work and also the structure of the working group
- There is also the suggestion that the L&D WG include DRR&DRM

Adaptation Priorities

- Fish aggregate devices (FADs)
- Expenditure Review
- Impact Assessment
- Human health
- Pro-Poor detailed in depth vulnerability assessments
- Building cored - infrastructure
- Ecosystem Based Adaptation

Adaptation Priorities

- Increase numbers of Ridge-to-Reef and Cross Sectoral Approaches
- Community Based Adaptation
- Link projects to mid-term development
- Link traditional knowledge and science

Adaptation Priorities

- Gender - systematic integration into climate change adaptation (design, assessments & implementation and M&E)
- Capacity building
- Sectoral level CBA
