

3rd Pacific Regional Dialogue on NDCs

SESSION 5: NDC Enhancement and Review

The Paris Agreement

- Requests those Parties whose intended nationally determined contribution pursuant to decision 1/CP.20 contains a time frame up **to 2025 to communicate by 2020 a new nationally determined contribution** and to do so every five years thereafter pursuant to Article 4, paragraph 9, of the Agreement;
- Also requests those Parties whose intended nationally determined contribution pursuant to decision 1/CP.20 contains a time frame up **to 2030 to communicate or update by 2020 these contributions** and to do so every five years thereafter pursuant to Article 4, paragraph 9, of the Agreement;

Why should you enhance/revise your NDC?

- Paris Agreement and Paris Decision
- Reality on the ground is not reflected in the NDC (moved beyond the NDC)
- New domestic information is available
- Better understanding of what NDCs are, what others are doing and what the Paris Agreement demands
- Long-term vision / strategy in response to Paris Agreement
- New partnerships and cooperation
- Show leadership and use the NDC as a communication tool

- 2018 Talanoa Dialogue
- 2019 UN Secretary-General's Climate Summit
- 2020 Report on the state of implementation

Guiding Questions

To which extent does your country's NDC (from 2015) still reflect the reality of climate action in your country, and what has changed since the preparation of your NDC?

What does your country require in the process of updating/revising its NDC (e.g., types of support, guidance on methodologies/processes, etc.)?

How can the UNFCCC process promote ambition in the next round of NDCs and how can the Talanoa Dialogue be used to that end?
